

Have we got your details?

Following on from last weeks email, please could you ensure that you let us know if you have updated your contact details. In addition, Asthma Care plans and medical information needs to be updated as often as possible to ensure we have an accurate record of your child's health conditions - if you need paper copies of these forms please do not hesitate to ask. Many Thanks to those who have returned these already.

MultiSports on Monday Afterschool

After school Multisport now open to children in Class 2 & 3. This will be led by Jack Croton and he will be running this session by splitting the playground into 2 areas, to allow for the 2 class 'bubbles' to join in simultaneously whilst maintaining the rules we currently have in place. The Sessions will run from 3.15pm – 4.30pm and are charged at £2 per session. Please can you confirm if your child will be attending by 12pm on Monday, so we can make sure we have everything in place for the session.

School Payments Going Online Soon!

Next Thursday we will be sending home access letters with codes for our new online payments system.

This system will allow you to view and pay for lunches, uniforms and items such as educational trips and visits.

There will be information within the letter on how to use the system, and you can always contact the school should you have any queries.

Update from Mr Brough

A week into the new school term the children are quite naturally feeling tired. With so much time off school this is to be expected, as is their susceptibility to new bugs and viruses. This week we've noticed a number of children with 'head colds'. In the current climate several parents have been asking about school protocols regarding illness.

If your child or anyone in the family is showing signs of Covid-19 – high temperature, continuous cough and loss of taste and/or smell – your family should self-isolate for at least 10 days. You must arrange to have a coronavirus test and you must inform the school. We have to inform the local health protection team (HPT) of any possible or confirmed cases. If there is a known case within the school community a letter from the HPT will be provided to school and we will send it to you.

With any other illnesses such as the 'head cold' currently doing the rounds, as a rule of thumb, if your child needs medicines such a dose of Calpol, to get them out the door in a morning, they should not be sent to school until their symptoms improve.

Please note, with upset stomachs, as before, your child must be 48 hours clear of diarrhoea or vomiting before returning to school.

The above is just my advice, I am not a doctor, but I am thinking of the health and welfare of the whole school community including yourselves and my staff. Please be considerate.

Next Weeks Menu
